PROFESSIONAL SUMMARY

Experienced and detail-oriented Test Engineer with 5 years of experience in manual testing and software quality assurance. Demonstrated expertise in planning, executing, and managing end-to-end testing processes using tools like Redmine. Skilled in identifying critical defects, collaborating with developers to resolve issues, and ensuring that software meets high-quality standards before release. Adept at crafting comprehensive test cases and performing functional, regression, and user acceptance testing across multiple platforms. Proven ability to thrive in Agile environments, working closely with cross-functional teams to deliver robust, reliable, and high-performing software solutions. Committed to enhancing testing processes and contributing to continuous product improvement.

TECH STACK

- **Testing Management Tools:** TestRail
- **Defect Tracking Tools:** Redmine, Bugzilla, Jira
- **Automation Exposure:** Selenium WebDriver (Basic knowledge), Postman (for API testing)
- **Operating Systems:** Windows
- Web Technologies: HTML, CSS, Basic JavaScript (for understanding web testing)
- Databases: MySQL, SQL Server, Oracle (Basic SQL for database validation)
- Version Control: Git
- **Methodologies:** Agile, Waterfall, SDLC, STLC
- **Browsers:** Chrome, Firefox, Edge, Safari (for cross-browser testing)

FUNCTIONAL SKILLS

- ✓ Functional and Non Functional Testing
- ✓ Manual Testing
- ✓ Test Planning and Strategy
- ✓ Defect Management
- ✓ Functional, Regression, and UAT Testing
- ✓ Test Case Design and Execution
- ✓ Cross-Browser Testing
- ✓ Mobile application manual testing

WORK HISTORY

Oct 2019 - Present Test Engineer, ipsr solutions limited, Kottayam

- Review and analyze Business Requirements and create Test Plans, Test Scenarios, Test cases, Test Scripts, Test Estimation, Requirement Traceability Matrix and defect management.
- Work on all phases of Software Testing Life Cycle (STLC), its methodologies such as Agile, SCRUM and Waterfall Model.
- Functional testing, GUI testing, API testing using postman, Regression testing, Smoke testing, Sanity testing, User Acceptance Testing (UAT), Integration testing, Cross browser testing etc.
- Handle complex applications such as ERP Application, Accreditation Application, Questionpaper.ai application, Job Recruitment mobile and Web application.
- Test different websites

July 2019 – Sep 2019 Test Engineer Intern, ipsr solutions limited, Kottayam

- Review and analyze Business Requirements and create Test Plans, Test Scenarios, Test cases, Test Scripts, Test Estimation, Requirement Traceability Matrix and defect management.
- Work on all phases of Software Testing Life Cycle (STLC), its methodologies such as Agile, SCRUM and Waterfall Model.
- Functional testing, GUI testing, API testing using postman, Regression testing, Smoke testing, Sanity testing, User Acceptance Testing (UAT), Integration testing, Cross browser testing etc.
- Handle complex applications such as ERP Application, Accreditation Application, Questionpaper.ai application, Job Recruitment mobile and Web application.
- Test different websites

June 2018- Nov 2018 Software Testing Intern, Spyrosys Solutions, Vazhakkala, Kochi

 Preparation of test cases and execution of functional testing of web applications and windows based applications using manual testing.

June 2015-March 2016 Assistant Professor, Aman College of Science and Technology, Kottayam

• Handled all computer related subjects for BCA, B Com, BA English Triple Main students.

Dec 2014 to May 2015 Php Programmer, Brahmma IT Solutions, Kochi, Kerala

- Implemented code in n-tier architecture according to coding standards.
- Performed debugging of applications as well as analyze source code to identify root cause of the issue.
- Developing DB and Writing and modifying stored procedures
- Creating Unit Testing
